### Public Access to PDC Reports Exceeds Targets

The 2002 Performance Report submitted to the Governor on June 27, 2002, shows public access to campaign and lobbyist filings far exceed statutory goals.

**Electronically filed disclosure reports** are available to the public 128 times faster than they were just two years ago. The statutorily set target for Internet access to electronically filed reports is 2 business days of receipt by PDC. Today electronically filed information is available to the public on the Internet within minutes of filing.

**Paper filed disclosure reports** are being posted on the PDC Web page ten times more quickly than two years ago. The statutorily set target for Internet access to paper filed reports is 4 business days of receipt. Today paper filed information is available to the public on the PDC Web page the same day as received and typically within 4 hours or less.
